Time to complete

1. Name & office you are seeking *

Jacob Van Horn & Senate District 48

2. Housing inventories are at all-time lows in many Montana communities. As a result, rent and home sales prices are at all-time highs. Local land use regulations and development review processes add unpredictability, delays, and extra costs to developing new housing stock, directly contributing to the housing shortage and lack of affordability. State law provides the framework and authority for these local regulations and review processes. As a state legislator, you will be asked to balance many competing interests in debates over land use policy. Will you support legislation that streamlines and supports new housing, even if it means local governments are given less control over housing development?

Yes

3. Property taxes are the primary funding source for local government services and infrastructure and help to fund public education. Increasing mill levies and increasing property value assessments have left many homeowners and commercial property owners asking for relief. How would you propose providing property tax relief to Montanans?

Yes, I would propose legislation to fix property taxes upon the sale of the propertys assest value at time of sale. This would have a 5 year window for those that bought homes for each year in reverse to be fixed upon the assest value. With those that ha e bought 5 years and beyond to have it assest from 5 years ago. This would help those with fixed incomes and

familys with tight budgets from worry of not being able toeet the increase in there property taxes. When you buy the property you know exactly what your property taxes will be for the life of ownership.

4. Montana is one of only a few states in which sellers of real estate are not required by state law to provide potential buyers with a statement disclosing the condition of the property. Will you support legislation that requires sellers to provide buyers a disclosure statement? *

5. New housing and businesses require a source of water. Connecting to municipal water services is not always an option as cities are not always able or willing to extend infrastructure. In these cases, a water right must be secured through a process governed by state law and Department of Natural Resources and Conservation regulations. Reform is necessary as securing a water right is often costly, uncertain, and time-consuming. This ultimately hurts consumers and our growing communities. Will you support legislation to streamline water right permitting processes? *

6. One in five homes in Montana is serviced by an onsite septic system. If properly installed and maintained, septic systems are a safe and cost-effective means of waste disposal for homeowners and businesses. Some regulations on septic systems are enforced by local health departments, and enforcement is inconsistent. For instance, how bedrooms are counted for determining what size of system is necessary and how nonconforming systems are handled varies. Will you support legislation that brings greater consistency to enforcement of regulations on existing septic systems? *

Yes

7. REALTORS® believe that private property rights are fundamental to our freemarket system and are a cornerstone upon which this nation was founded. Our United States and Montana Constitutions recognize and protect the right to own property. A strong economy depends upon preserving the right to freely own, use, and transfer real property. If elected, what approach will you take to balancing private property rights with public interests? *

Property Rights are fundamental to are way of life and to your freedoms. Without property rights are a fundamental human right with only life and liberty to match it. It shouldn't be violated. If a property is needed for purpose so great to the society that no other means are capable and if all means have been extinguished then fair market or above is the only means to remedy. If the government body that invoked eminent domain doesnt use it for the purpose it was taken for then they should be fine and the property returned or the property put up for sale. No property should be taken for private development or means but only for public projects.

8. The National Association of REALTORS include sexual orientation and gender identity anti-discrimination language in their code of ethics. Montana does not prohibit discrimination based on sexual orientation and /or gender identity. **As** a state legislator would you support legislation to prohibit discrimination based on sexual orientation and /or gender identity? *

No, if no one is physically hurting someone or damaging someones reputation then we cant tell people what to do. We can just let everyone know we dont agree with them and let society apply the pressure.

9. Treasurer's Name, Address and Phone Number *

Jacob Van Horn

10. Will you accept PAC contributions? *

4/6/22, 9:36 AM Microsoft Forms

Thank you!

We appreciate you taking the time to complete our survey so that we might better understand your position on key issues facing our community. The committee will be evaluating surveys received and responding within a few weeks regarding next steps.
